THE TELEGRAPH. ASHTABULA, OHIO.

Saturday Morning, Dec. 5, 1874.

THE NEWS IN BRIEF. The Hon. George W. Julian is spoken of as an available candidate for the Unit-

ed States Senate from Iodiana. A' dispatch to a New York paper reproduces an editorial from a Shreveport pa per advocating "the assassination of every radical candidate counted in by the Returning Board.

New York originates fifty-five to sixty tons of mail matter daily. The efficiency of the postal service of the country is increasing. In 1873, one letter went wrong in each 770; in 1874, only in 1,500.

The Washington Monument Association continue to report the receipt of subscrip- of them by this means. tions from various sections of the country and the prospect of an early completion of the monument seems to be better tahn

30th of September last, and the whole bread! True it is that every rich young was scaled with a present from his Fiji manjin New York does not buy such ex-Highness, the King, to Queen Victoria, of travagant articles; but the mania for rich five turtles and a new canoe!

The machinery for the release of Boss Tweed has been put in operation, Judge Barrett, of the Court of Oyer and Terminer, having granted a writ of habeas corpus for the old thiel, returnable to the Superior Court on Wednesday of the present

an additional Judge for this Judicial District, who shall hold court anywhere in the District, in case any of the Judges are at any time unable to attend to their

The assay office at New York recently recieved three and a half tons of silver bullion from the San Francisco refinery, being the largest amount ever received at one time. It will be coined into 50-cent pieces, and sent, it is supposed, to South America.

Congress will not stand shivering on the brink next week, but will probably plunge boldly into the tide of business even if they take the cramp, thereby. The Civil Rights bill is second in order on the calender; the principle appropriation bills are in readmess; and the carrency question, as the reporters say, is looming up."

The King of the Sandwich Islands is now on a visit to this country, having landed in San Francisco last week. He intends to make rather a lengthy visit ing reconstructed his Cabinet, and apsointed a successor to the throne. Kalakus is the King's name. It is said that Novices make bad work of it. The he has a passion for strong drink.

vote at all. Three times Fernando Wood, to prevent threatened reduction of waof New York, voted for the bill; the reges. There will be inevitably a great maining four times he dodged. These deal of are the three men that are mentioned in connection with the Speakership by the in the city this winter. Labor is very

heat, best three in five, to wagon, postponed from November 7, took place at San Francisco on the 21st ult, at Golden Gate driving Park, the contestants being Occident, Judge Fullerton and Sam Purdy. Judge Fullerton won the first heat; in the second heat Judge Fullerton again came in first in 2:224, Sam Purdy second, Gooident seventy-five yards behind. The third heat Judge Fullerton again came in ahead in 2:21 winning the ruce.

Republican voters who showed their defection to their; party friends by assisting in the election of old-line democrats, will watch with some interest the movement for the release of Mr. Boss Tweed, now being made in New York. But one month has passed since the election, and Tweed's friends move for a hebeas corpus! Converts to Democratic principles should lose no time in backsliding into the Republican party, or they may live to own Tweed as their

The Supreme Court has decided that the Indians, in their tribal relations, have no property rights in fee; also that the timbers and minerals on the reservations are a part of the realty, and cannot be sold or leased. This is an important decision, coming from that Court. It imsome tribes, and seriously affects all. It destroys the value of their eservations except for hunting and grazing grounds. It annuls the contracts which have been made with the savages by speculative and not too scrupulous whites. The substantial justice of the decision, we believe, will recommend it to every body.

Sciumbus-Rooting of Legislature. Both branches of the General Assembly convened at 10 o'clock on A. M. on Tuesday last, pursuant to adjournment. In dred and five persons answered to roll

Bills were introduced making approthe last quarter of 1874 and 1875, amounting in the aggregate to \$1,974,546.

In the Senate twenty-eight members answered to roll call. The annual message of Goy. Allen was then read in each house. The message will be found else-

TUSCUMBIA AND ITS VISITATION.-Full particulars of the work of the tornado show that in violence and destructiveness it has had few equals. The first shock was felt at half past six in the evening. Its duration was two minutes. The track of the storm was from 300 to 400 feet. The population of the place is estimated at two thousand, and it is no exaggeration to say that of this number not five hundred persons have been left with an unin- Jersey City Ferry is becoming particu- York. jured roof over them. Fully one hundred buildings were completely demolished, and not one in the town escaped without some damage. On Main street, the entire roadway is strewn with the splintered trunks of fallen trees. In all the streets of the town household effects were senttered about at random. Beds, and bedclothes, torn to shreds, are daugling from many of the trees. After the first shock of the storm was over, many of the startled inhabitants removed their furniture from their falling dwellings. No sooner had they done so, however, than a most terrible rain storm came on. In five minutes the streets were knee deep with water, and everything exposed to the storm was

utterly destroyed. The cleaning up of the whole affair by this year than ever before. All business except the saloons and restaurants, was fire, was prevented by the heavy rain that followed the blow. The fire that had suspended, and the day was devoted in the control of the rubbish had to follow hills it and what was to the control of appolexy.

clothing, extrayagantly rich clothing, has taken possession of young New York. To pay \$150 for an overcoat is nothing rare, and a suit, from hat to boots, including overcost, that does not go a long way into \$300 is not much of a suit Add to this the diamond stude, the ring, the watch, and the other adornments, and Charles Augustus manages to lation asking the Legislature to appoint carry about him the best end of two thouvery frequently. But, nevertheless, they have cut down the \$650 salaries of the

poor teachers seven per cent. and are standing out against the 'longshoremen, who want enough wages to keep soul and body together. Speaking of the 'LONGSHOREMEN, Their strike is general, and embraces

nany thousands of men who find their daily bread in loading and unloading ships. It would seem the height of folly for any set of laborers to strike at the beginning of a long winter, but the longshoremen have, from the nature of their employment, fair prospects of success. Any man can roll a barrel, but every man cannot put a package properly in the hold of a vessel, or take it out without damage. It is a trade. And when a vessel arrives, the demand for the services of the 'longshoremen is immediate and pressing. The raw man cannot take his place. There are 9,000 of these men. They, have made the demand for torty cents an hour for day He has arranged the affairs of his Em- work, and sixty for night work, and pire to meet unformen contingencies, hav- they are well organized to hold out. COOPERS

TROUBLE AND SUFFERING scarce now, and the cold weather puts The trot for a purse of \$6,000, mile its veto on the little building that is going on, more men will be thrown out of employment, and the trouble will increase. The city is a cruel place for a man out of work ; rent, food, fuel, every. thing costs so much that when the daily work that supplies it stops, starvation or the accepting of charity is only a few weeks ahead. It costs a laborer all he can earn to-day to live to-day-he cannot provide for the morrow when work stops. Heaven help the poor this sea-

One of the great troubles in the small owns and cities of the country is to get properly trained and educated servants. This want can now be supplied at a trifling cost. A number of charitable ladies wh chave more time and money than they know what to do with, and some little heart, established a year or so ago, a training school, to fit girls for service, on Tenth street. They take raw girls, and teach them to cook, wash, iron, sew, to wait at table, and do everthing that comes under the general head of housework. The work of preparation is done in no sloven way. Twice a week a French cook goes into the kitchen with ing a passing notice. Passing up the all the girls, and delivers to them a lecture on the preparation of such dishes as he selects, illustrating by actuually doing the work before them, and my years ago. On the morning in quesmaking them do it. They run a laundry a restaurant, and a dressmaking establishnent in the house, to the end that it shall be, not only of use to the girls by teaching them their dut les by actual practice, but that it shall be self-sustaining, which it is. The school has taken housands of poor girls who were starying because they did not know how to work, and has turned them out capable and intelligent and worthy of good work and good wages anywhere. The manthe House seventy-one out of one hun- ager of this sensible charity is Mrs. Ju-Ha Croson, and is located at 47 East Tenth Street. A girl from this school is almost certain to be honest and capable. priations for all the State expenses for Housekeepers in want of good, trained servants will do well to make a note of

> HIGH BUILDINGS The mania now running among those who build at all is altitude. Some years ago the Equitable Life Insurance Companyiso ran up a building that loomed above anything else on lower Broadway, and since that height, has run in the minds of everybody. The new Tribune building is nine*immense stories high, with a tower almost touching the sky; the new building of the Western Union Telegraph Company is almost as high; the Domestic Sewing Machine is eight; the new post-office cannot be counted in stories, but it is an enormous building, and so on. The view of the city from the the prettiest villages in Eastern New larly pleasant. These buildings, with the scores of others, tower up above their surroundings, relieving the monotonous uniformity which formerly wearled the eye. These tall buildings do not payin fact, every one of them is a dead loss above the fourth story ; but nevertheless. I hope the building of them will go on. They beautify the city, and the public get a benefit whether the proprietors do or not. It is a fact that none of these buildings pay three per cent. on the cost of construction and present price of ground; but the proprietors all live in hope of the future. "Hope springs eternal in the human breast."

THANKSGIVING

serving poor person in the city got one good square meal. At the three-mission of Ohio, received a medal from Francis houses in the Five Points over 3,000 Joseph on the 3d ult. come back again. THE WEATHER is as pleasant as it can be. It is not especially cold, and the skies are bright and the air bracing and healthy; consequently there is but little sickness in the city. If business were only better, and employment for the laborers were not so scarce, the season would be a delightful one. But we can't have everything.

New York, Dec. 1, 1874.

JOTTINGS BY THE WAY. Next in my route is North Bennington -a small, but very thrifty, enterprising town, situated-if I mistake not-on Hoosac River. There are several large mills for manufacturing prints, also paper mills, for the manufacture of wall and curtian paper. To the west of the village, is the palatial summer residence of T. W. Park, a railroad man of New York. The house, 80x130 feet, is of wood, but splendid in all its appointments and surroundings. The teautiful lawn is adorned with statues and elegant fountains. Several hundred broad acres of fine farming lands immediately surround the housewhich, with all its appurtenances, cost \$250,000.

A few miles to the S. E. is the old and famous town of Bennington-population, 4,000. It is widely scattered-the oldest portion being to the north-west, on a ridge, while the newer and business part, INGRAIN CARPETS 60c, worth 75c, is in the valley, and near the stream. grab bill. Every time N. P. Banks of co-operative shops, that enough employ Here stands the immense mills of the Mass., voted for the bill. Four times ment may be had to keep the strike from Bennington Mig. Co., now idle-company Dan Voorhees, of Indiana, voted for the being a failure. Other occupations are having collapsed. The site, tenements bill; the other three times he did not banding together, in most cases, however. for operatives, and the mill, filled with the finest of imported machinery, cost \$650,000, and was sold for a song.

To the west is Mt. Anthony, 1,800 feet high-forest-clad to its summit, on which stands an observatory 80 feet high. Next morning, returning to N. Bennington, I proceeded westward to F. & B., and Harlam Extension Junction and thence on B. railroad to Williamstown, Mass., nearly due east of Troy. It is a lovely town of 3,000 population, standing in a narrow valley, with mountains on nearly every side. To the south, "Grayback," and Mt. Piscah on the N. E. What gives it prominence is William's College-one of the first-class colleges of New England, and among the oldest. There are nine college buildings, and besides there are society halls. The Old West College still stands. The fine new chapel is built of granite. On the inner front wall is an inscription to the memory of Col. Ephraim Williams -who tell in battle. He was the founder of the college. The gymnasium-a splen did structure-is also of granite. The observatory contains one of the largest and best telescopes in the country.

As my time was limited, I could but pass around to the different buildingsentering some, whose walls and recitation rooms were, like old acquaintances never to be forgotten. Memory was strangely active, and old scenes and events came thronging up, and demandsteps leading from the chapel to the West College, I was forcibly reminded of an incident that transpired on that spot mation, as the classes were returning from morning prayers, the "sophs" thought they would here find a favorable place to make a "rush" and prevent the freshmen gaining the terrace. The Professors had forseen that trouble was brewing, and ac-cordingly took their places between the cordingly took their places between the classes, thinking thereby to prevent, by their dignity, and august presence, any scene. But they did not weigh well the impudence and audacity of "sophs," for too often, they fear not God, nor regard man. Just as the Professors had gained the terrace, came the "rush"-each class struggling for the mastery-regardless of DRY GOODS, the Professors, who were most rudely pressed and tossed about-losing their "tiles" in the scrimmage. But freshmen muscle was too much for sophomore dash and impudence and they were the victors. Enough glory for one day! Well, "boys will be boys," is an old adage, but may

be equally well applied to boys of larger growth. With a hurried visit to Lawrence Hall and Library, and a look at the large and fine new Congregational church edifice, I reluctantly bade farewell to the time honored and classic walks of Williams-

Retracing my route, I made hurried visits to Hoosac Falls, Cambridge, Salem and Union Village, N. Y., towns ranging from 1,500 to 3,000. The latter is one of

On the second day, I took the Troy & Boston train and soon was landed in the former city. As the train rolls in from the heights, the view of the Hudson, the the heights, the view of the Hudson, the large towns in the suberbs—viz., Lansing-burgh. Waterford and Cohoes—is exceedingly fine. Of the latter town, one gales some idea of the large manufacturing interests centered there. One of the shifts looms up prominently among the many. It is 1,410 feet long, and has 1,500 looms—said to be the largest in the world.

It is 1,410 feet long, and has 1,500 looms—said to be the largest in the world.

Troy will, doubtless, soon gather these towns into her municipal fall and thus like New York and limits, jump quickly into a city of "Cleveland, Troy certainly is a preint one first-class great natural advanter city, and has doubtless make her ges, which will and important city one of the most thrifty are of the State.

followed the blow. The fire that had been blown about among the rubbish had begun to kindle, and but for the rain, it would be difficult to tell what the end would have been.

THE ERIE STORE MAKING A CLEAN ST

"Old Fogies" shaking and quaking; the people have heard enough of their blowing and talking about us. We know we have compelled them to break their monopoly. All we have to say to them is, if they cannot conform to our low prices they had better shut up shop, and seek an honest living in some other business. For we shall continue to give the people the best of goods at reasonable prices. Some of these "Old Fogies" say that they will sell as tow as any other store in Ashtabula. Others that their facilities for procuring goods are as good as any other store, and as they sell for cash, (in six months or a year,) they will not be undersold. All this may be true but if so,

Why don't they sell you Lousdale Cotton at 111c

" Best Print Remnants at 6 le " Fine yd. wide Muslin at 7c Canton Flannel Remnants worth 18e for 124e

" Good Woolen Yarn at 90c?

And another point, we have all the goods we advertise and sell them at prices advertised. Black Alpacas!

Black Alpacas we have been selling at 371c now 33c " 450 now 371c " 50c now 45c " 55c now 50c " 621c now 55c

Black Brilliantines been selling at 75 now 62½c 1d 4 4 4 4 4 4 4 4 8 75 now 70c a a a a 81.00 now 874c " \$1, 15 now \$1.00

The above Alpacas and Brilliantines are of a celebrated make, and a fine color and high lustre. We have made heavy purchases of these goods during the past two weeks, and have put the prices below competition.

DRESS GOODS, DRESS GOODS!

All our fall and winter Dress Goods must be closed out before the Holidays, and in consequence, we have put the prices down to secure imme-

10 pieces striped Dress Goods reduced from 20 to 15c 15 pieces striped and plain Drees Goods reduced from 371 to 25c 10 pieces mixed Dress Goods reduced from 40 to 30c 10 pieces all wool Satines (very cheap) reduced from 60 to 45c 10 pieces all wool Empress Cloths reduced from 60 to 45c 5 pieces all wool French Merinos reduced from 75 to 65c 5 pieces all wool French Merinos reduced from 871 to 75c 5 pieces all wool Poplins, basket wove, reduced from 85 to 624c 5 pieces all wool Poplins, diagonal, reduced from 85 to 621 5 pieces all wool Navy Blues reduced from 85 to 624c

The above goods were sold at much lower prices than some could be bought for of any other store, and now during this great sale they are lower than they could be bought at wholesale in the Eastern market.

SHAWLS! SHAWLS!

We have reduced the price on every Shawl in our Store to cost.

Paisley Shawls that we have been selling at \$20.00 now \$16.00 " \$22.00 now \$18.00 23 22 23

WATERPROOFS!

In these goods we have a large assortment in black, gray, blue and gold mixed; all of which will be sold 20 per cent. cheaper than the same can bought at any other store.
